

COASTAL SEDIMENTS '77

COASTAL SEDIMENTS '77

COASTAL SEDIMENTS '77, held in Charleston, South Carolina, November 2-4, 1977, was the fifth in a series of symposiums sponsored by the ASCE Waterway, Port, Coastal and Ocean Division. Previous conferences were WAVES '74 in New Orleans, Louisiana; MODELING '75 in San Francisco, California; RIVERS '76 in Fort Collins, Colorado; and PORTS '77 in Long Beach, California.

Like the others, this symposium was quite specialized and at the same time consisted of material of importance to several disciplines. The objective of COASTAL SEDIMENTS '77 was to provide a forum in which the state-of-the-art of the functional design of structural and nonstructural solutions to shore protection and inlet stabilization problems could be discussed. Papers presented and discussed included coverage of the functional design of coastal structures, beach fill design, dredging operations, the anticipated and unanticipated effects of coastal structures on adjacent shores, sediment transport under waves, and case studies of coastal processes and inlets.

The Symposium Organizing Committee

George Watts, *General Chairman*
Coastal Engineering Research Center

Billy L. Edge, *Deputy Chairman*
Clemson University

Charles B. Chesnutt, *Chairman*,
Program Committee
Coastal Engineering Research Center

Jerry L. Machemehl, *Program Committee*
North Carolina State University

Curtis Mason, *Program Committee*
Coastal Engineering Research Center

Limberios Vallianos, *Program Committee*
Army Engineer District, Wilmington

J. Karl Johnson, *Chairman*,
Budget & Registration Committee
Clemson University

Robert Barnard, *Chairman*,
Local Arrangements
Army Engineer District, Charleston

Thurman Morgan, *Local Arrangements*
Army Engineer District, Charleston

Charlotte Murray, *Local Arrangements*
Army Engineer District, Charleston

Frank Herrmann, *Chairman*,
Promotion and Publicity
Waterways Experiment Station

Omar J. Lillevang, *Promotion & Publicity*
Omar J. Lillevang, Inc.

The papers in these Proceedings are open to Discussion in the ASCE Journal of the Waterway, Port, Coastal and Ocean Division until April 1, 1978.
